Report of Greece on the implementation of measures decided by Security Council resolution 1532 (2004)

Security Council resolution 1532 (2004), adopted on 12 March 2004, provides for the freezing of funds and economic resources owned or controlled by the former Liberian President Charles Taylor, as well as relatives and associates of his (paragraph 1), as designated by the competent Committee of the Security Council, taking into account the exceptions provided for in paragraphs 2 and 3 of the said resolution.

As a rule the European Union adopts common positions and Council regulations to implement Security Council resolutions providing for the imposition of restrictive measures. These common positions and Council regulations are binding on States members of the European Union. To this date, and with respect to Security Council resolution 1532 (2004), the European Union has adopted Common Position No. 487 of 30 April 2004 and Council Regulation No. 872 of 30 April 2004.

Furthermore, to this date the Bank of Greece reports that no financial resources falling under the scope of Security Council resolution 1532 (2004) have been identified concerning persons whose names are mentioned in the assets freeze list provided by the competent Committee of the Security Council.
